

*Custom Builders*

June 9, 2007

Dundarave Construction has used the services of Kirk Electric on our residential projects for the past nine years. We have found them to be consistently competent and thorough in their work, while always mindful of the importance of helping to keep the work on budget and on schedule.

Many of our projects involve extensive renovations to homes while the clients are in residence, and Kirk Electric's care and consideration of the homeowners during this process has always been appreciated.

We have no hesitation in highly recommending G.V. Kirk Electric.

A handwritten signature in cursive script that reads "John Rubin".
